Milwaukee Radio Amateur Club, Inc.
Annual Report of Director John Scarvaci, W9GIL

I was very happy to see the increased activity, in all phases of our hobby . The 1957-1958 season was a record year for club participation in various events, local, state and national.

I believe that some solution to the problem of getting more members to attend the regular meetings will also stimulate furthur activity.

With the added increase in amateur licences our continued growth and successful club seasons in the future is assured.

Respectfully submitted,

John Scarvaci
